

Justice in Action -- Global Atlas for Street Children

Our Justice in Action Projects are pro bono efforts to continue the thinking and dialogue from the Children's Rights Summit. Baker McKenzie will partner with in-house attorneys looking to engage in any Justice in Action projects.

What? An online atlas of countries mapping important legal issues for children living, working and dependent on the street around the world based on United Nations standards

Why? We take the UN General Comment on Children in Street Situations from paper to practice through the development of a digital "Legal Atlas". Countries across the globe are working to meet the expectations of the General Comment on Children in Street Situations.

How? Volunteer teams adopt a country and answer a series of legal questions based on the law of that country relevant to police power, right to be free from detention and legal identity.

Get involved with this work with Consortium for Street Children -- reach out to probono@bakermckenzie.com!
